## POWER AND ENERGY

We have advised both private companies and sovereign governments on a host of energy-related transactions and disputes throughout the world, including:

- represented U.S. government chartered bank in dispute and workout of \$ 600 million power purchase agreement and related documents concerning an electric power facility in Southeast Asia
- drafted and negotiated project, financing, and security documents for a U.S. \$180 million loan facility supporting a 120 MW power project in San Jose, Guatemala
- advised Central Asian government on regulatory and legal reforms for development of on-shore hydrocarbon resources
- advised a major U.S. utility on a proposed purchase of a hydroelectric power plant in the Philippines
- advised Southeast Asian government on regulatory reforms and commercial considerations for development of offshore hydrocarbon resources and energy sector generally
- advised U.S. government chartered lender on its loan to a private equity group investing in Latin American power projects
- advised a leading private equity investor on a proposed purchase of a hydroelectric power plant in South Asia
- advised the local developer of a gas power plant in South Asia in the sale of equity to Japanese, U.S. and Australian investors
- advised independent power developers on projects in India, China and Italy
